WORK EXPERIENCE

AI Automation Lead
Nov 2025 – Present

Webking Solutions, Ahmedabad

- Led AI automation initiatives and independently designed 50+ production workflows across email marketing, CRM, social media, lead generation, business operations, and reporting
- Architected end-to-end email outreach automation systems for Indian and international markets, including lead scraping, AI personalization, follow-ups, bounce handling, and deliverability optimization
- Developed complete CRM automation ecosystem including lead follow-up systems, performance reports, Google Calendar sync, EOD reports, referral tracking, and backup workflows
- Created social media automation platforms for scheduled posting across LinkedIn, Facebook, and Instagram covering marketing campaigns, articles, and client engagement content
- Owned business process automation solutions including task reminders, leave tracking, helpdesk workflows, ticket follow-ups, operational reports, and internal process improvements
- Integrated Zoho CRM, Google Workspace, Meta Ads, AI tools, and third-party platforms using APIs, webhooks, n8n, and Google Apps Script

AI Automation Developer (Freelance Contract)
Apr 2026 – Present

Furniquin Group, Remote

- Designed and deployed AI automation workflows across multiple business verticals including travel, e-commerce, CRM, and marketing operations
- Built AI-powered lead management, WhatsApp automation, email workflows, and conversational AI workflows for travel business operations
- Developed and integrated AI voice agent prototypes using Vapi, LLMs, APIs, and webhooks to automate customer interactions and lead qualification
- Developed social media, reporting, and business process automations using n8n, Google Workspace, and AI tools

AI Automation Associate (Ad Hoc) **Oct 2024 – Oct 2025**
TTEC, Ahmedabad

- Contributed to workflow automation and process improvement initiatives alongside primary customer support responsibilities
- Developed and supported automated reporting and data-processing workflows to reduce manual effort
- Assisted in implementing AI-assisted solutions for repetitive operational tasks and workflow optimization

Associate Technical Support **Jun 2024 – Oct 2024**
Tech Mahindra, Bhubaneswar

- Provided technical support for an e-commerce platform by troubleshooting customer and account-related issues.
- Worked with backend systems, ticketing tools, and operational processes to ensure timely issue resolution and service continuity.

KEY PROJECTS & AUTOMATION SYSTEMS

- **AI-Powered Email Marketing & Outreach Automation** — Built AI workflows for personalized email generation, automated follow-ups, lead nurturing, bounce handling, and customer engagement.
- **CRM Lead Management & Business Intelligence System** — Developed CRM workflows for lead qualification, follow-up reminders, activity tracking, automated reports, and business insights.
- **AI Voice Agent & Conversational Automation** — Built AI voice agent prototypes using Vapi, LLMs, APIs, and webhooks for customer interaction and lead qualification workflows.
- **CRM & Calendar Synchronization Platform** — Integrated CRM systems with Google Calendar for meeting scheduling, reminders, event synchronization, and activity tracking.
- **Business Process Automation Platform** — Developed n8n workflows for task automation, approvals, operational tracking, reporting, and team productivity improvements.

EDUCATION

- **Master of Computer Applications (MCA – Hybrid)** – IIT Patna **Jul 2025 - Present**
- **Bachelor of Computer Applications (BCA)** - IPSAR, Cuttack **Nov 2021 - Aug 2024**
